Additional protection from fluid ingress. Fits the MS Driver Shoulder holster and allows stable operation on a flat surface

Fact:
The Archer Fish, which live in the Mangroves of South East Asia, are famed for their ability to shoot a highly accurate jet of water from their mouths in order to knock down prey.
Famed for their simplicity and reliability, the Graseby® MS Drivers have been the choice of healthcare professionals in hospitals, nursing homes, palliative care and community settings for over 25 years.

**Applications**

Suitable for both IV and subcutaneous infusion, typical drug infusion include: analgesics, sedatives, diuretics, bronchodilators, chemotherapy agents.
Famed for their simplicity and reliability, the Graseby® MS Drivers have been the choice of healthcare professionals in hospitals, nursing homes, palliative care and community settings for over 25 years.

Applications
Suitable for both IV and subcutaneous infusion, typical drug infusion include: analgesics, sedatives, diuretics, bronchodilators, chemotherapy agents.

The Graseby® MS Driver Lock Box
- Consists of hard polycarbonate (shatterproof) material incorporating clear viewing windows for monitoring the syringe and rate settings.
- Lightweight and portable. Stable on a flat surface or fits into the Graseby® MS Syringe Driver shoulder holster if required.
- Key lock access offers complete control and increased confidence to the authorised clinician.

Syringe Driver Packed Set
Syringe driver, shoulder holster, syringe cover, rate adjuster, battery and instruction manual.
