UV-C disinfection unit with drying function // item no.: 36120

Newborns do not yet have sufficient antibodies to protect themselves against pathogens. With efficient UV radiation, baby bottles and accessories can be quickly and reliably disinfected and babies are thus protected from harmful bacteria and germs.

- **safe and fast disinfection:** eliminates up to 99.9% of all viruses, bacteria and germs within 10 minutes; with UV radiation - without the use of chemicals, steam or hot water
- **universal use:** for bottles and accessories, breastfeeding utensils, teething rings, toys, nasal aspirators, fever thermometers, tooth-brushes and much more
- **3in1:** disinfect, dry (e.g. clammy baby clothes), keep sterile (up to 72 hours)
- **large capacity:** 8l capacity, for up to 12 bottles and accessories (in separate, removable small parts insert)
- **easy cleaning:** plastic housing and stainless steel insert

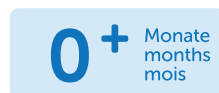

item details:

item no.:	36120
EAN:	4013283361207
contents:	1 piece
sales unit:	1
master:	2
colour:	white, grey
languages on packaging:	DE, GB, FR, IT, ES, NL, PL, CZ

item features:

- disinfection without heat: Baby utensils are immediately ready for use again, as no cooling is required
