## VapoDryS // item no.: 36130

Vaporizer with drying function

Newborns do not yet have sufficient antibodies to protect themselves adequately against pathogens. Even the simplest contaminants can cause diarrhea, vomiting or even infections of the gastrointestinal tract. Using energy-saving hot steam technology, the vaporizer disinfects baby bottles and pacifiers quickly and reliably, protecting little ones from harmful bacteria and germs.

- reliable, fast disinfection:** steam disinfection eliminates 99.9% of all bacteria and germs and germs in 10 minutes - without the addition of chemicals
- easy operation:** digital panel with intuitive icons, 4in1 function
- bottle quickly ready for use again:** through 30-minute drying process
- large basket insert & generous steam container:** for up to 5 bottles (for all common baby bottles; also feeding bottles and wide-necked bottles) and accessories such as soothers or teats; can also be used separately
- with practical tongs:** for easy and safe removal of the disinfected, hot bottles
- easy cleaning:** easy to clean stainless steel heating plate; with integrated descaling function

### item details:

item no.:	36130
EAN:	4013283361306
contents:	1 piece
sales unit:	1
master:	4
colour:	white / anthracite
languages on packaging:	DE, GB, FR, IT, ES, NL, PL, CZ

### item features:
